

KZF Design Wins 2008 US Department of Defense Value Engineering Award for HPW Complex

Human Performance Wing at Wright-Patterson Air Force Base, Dayton, OH

award winner

KZF Design and Barge Waggoner Sumner & Cannon are pleased to announce the U.S. Department of Defense has awarded us a Value Engineering Achievement Award 2008 for our work on the Human Performance Wing Complex at Wright-Patterson Air Force Base in Dayton, OH. This recognition joins the KZF Government and Justice Group's long list of awards and achievements over the past decade. We salute our design professionals for their unwavering dedication to innovation and creativity and commitment to reducing cost, increasing quality, and improving mission capabilities of the DoD and all our clients, both military and civilian.
