

KZF Design Selected to Present at the 2009 Ohio Transportation Engineering Conference (OTEC)

presentation

KZF Design will present *Porous Pavement: A Green Step Forward* at the 2009 OTEC, discussing our work on the Transit Authority of Northern Kentucky (TANK) Park & Ride facilities in Ft. Wright and Boone County, KY. The presentation will focus on the design of a 1.4-acre porous asphalt Park & Ride facility and the use of porous asphalt as a best management practice to reduce stormwater runoff, provide stormwater detention and improve stormwater quality. **Come to the OTEC Asphalt Pavements Technical Session, Tuesday, October 27th at 1:00PM.**

TANK Park & Ride in Ft. Wright, KY
