

AIA Cincinnati's Committee on the Environment Presents

DAYLIGHTING FOR SCRIPPS - A CASE STUDY

Date: Wednesday, January 26, 2011

Time: 12:00 noon (lunch provided by Advanced Glazings)

Place: Offices of KZF Design, 700 Broadway, Cincinnati OH 45202

Cost: \$10 for AIA Members; \$15 for Non-Members; Students *Free*

With the potential for energy savings and the increase in productivity of individuals working in daylit environments, daylighting has become a hot topic. This case study will present the approach KZF Design used in developing a 155,000 sf daylit office building for Scripps Networks in Knoxville, Tennessee.

This presentation will include a discussion and presentation by Steve Sendelbeck, AIA, the principal in charge at KZF Design together with Avi Bar, Vice President of Advanced Glazings, a company that specializes in daylighting. Don Junker, AIA will serve as the moderator.

Learning objectives—after attending this presentation you will be able to:

- 1. Investigate and compare various methods of daylighting**
- 2. Learn how to incorporate daylighting into a building design at an early stage in the process**
- 3. Understand the long term benefits of energy savings and occupant productivity in a daylit building**
- 4. Identify and recognize the environmental benefits of providing a daylit building**
Explore the potential for obtaining LEED points for daylighting

Attendees will receive one AIA/LU, HSW/SD
